FURTHER ANNOUNCEMENTS — All information contained in this catalog is correct to the best of our knowledge at the time of printing. Announcements made from the auction block Saturday, April 19, 1969 will supersede any material printed in this catalog.

Sales of this nature are never a very great pleasure for any one connected with the pure-bred cattle business. It is always hard to see a herd disperse that has been put together by people with a sincere desire to have only the best. Unfortunately, circumstances sometimes play an important role as to whether a herd can continue, and the Barnes' herd is in that situation today. The building of an interstate highway through the cattle farm has made it necessary for B. C. Barnes to sell the entire herd.

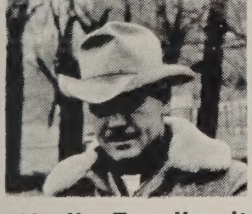

Over the last five years no distance or expense was too great for Carl Barnes to travel, and no price was too high as he selected the foundation for this herd. The females have come from leading establishments throughout the continent and from leading consignment and production sales, many times at the top of the sale.

Gene McDonald

The breed will surely miss a man of Mr. Barnes' integrity. However, it is heartening to know that he is planning to re-enter the Shorthorn and Polled Shorthorn business just as soon as a new farm can be located and purchased. Therefore, he is retaining one-third interest in the great modern sire, Camson Adjuster x.

It has been my pleasure during the last five years to be associated with Carl Barnes not only from a customer's standpoint but also by having the privilege of purchasing several of the foundation females for him. I believe when you see this group of cows on sale day you will be impressed with their uniformity and productivity.

Marlin Engelhardt

Associated with the Barnes' herd the last three years as herd consultant has been Marlin Engelhardt, one of the outstanding young cowmen in our breed today. Marlin has the herd in a high state of production. They are certified and accredited and he will be available sale day and any day previous to sale day to help you in selecting females from the herd or to give you more information concerning specific cattle in which you may be interested. Please feel free to call upon him at any time.

I look forward along with the Barnes family and Marlin Engelhardt to welcoming you to the B. C. Barnes' dispersion sale, Saturday, April 19. Please check the information on page two of your catalog and if we can be of help to you with reservations, transportation or any further information on the cattle selling please do not hesitate to call upon us.

Sincerely,
Gene McDonald

CAMSON ADJUSTER x

FOR REFERENCE AND SALE

CAMSON ADJUSTER x — The best, proven Polled Shorthorn bull ever to sell at auction. Breeders that are serious about raising bigger framed, lengthy, fast-growing, modern-type cattle, owe it to themselves to see this bull and the calves that he is producing. He is sired by the world record priced Dandy of Westdrums x and from a cow that cost $1,600 in the Camson dispersion, selling to C. S. Thomas & Son, Hartney, Man. Camson Adjuster x, is the sire of a number of young cattle selling including an outstanding bull calf that sells as Lot 5. Many of the cows selling are carrying his valuable service. Since B. C. Barnes is planning to re-enter the Shorthorn business at a later date, he is retaining a one-third semen interest in this bull. There is an excellent bank of semen available on Camson Adjuster x which the purchaser will be allowed to use. Two-thirds interest and full possession sell.

He is sired by Captivator of Bapton x, one of the first AAA Polled bulls in the United States, and is from a Ralph Cross cow family, that is noted for their size. Crusader was the second top of a Sutherland sale at $3,100 and has developed into a big, modern bull, who impresses all who see him. A number of daughters sell in this sale in addition to many calves at side. Foxdale Farm, Duluth, Georgia, purchased a one-half interest in Sutherland Crusader x last summer and bred their entire cow herd to him naturally. One-half interest and 6 months possession sell.

His calves in the Upson Farm dispersion last August were sale attractions. He has been used successfully in the Smalstig herd in Pennsylvania; the Pennsylvania State University's herd; Upson Farms, Georgia, and a one-third semen interest is currently owned by Oakwood Stock Farm, Ashville, Ohio. The stamp of approval which these leading herds have given the 44th should be evidence enough of his popularity. Two-thirds interest and full possession sell.
